- **Styling:** Tailwind CSS, Sass/SCSS, Bootstrap
- **Tools:** Git, Webpack, Vite, Jest, Chrome DevTools
- **Platforms:** Vercel, Netlify, ACF, Cloudflare, Webflow

Work Experience

Mid Level Front End Developer

Startise

2021 - 2025

- Developed and optimized Elementor & Gutenberg-based WordPress templates for **Templately** Product, delivering scalable and high-performance UI components.
- Built and maintained custom WordPress widgets for **Essential Blocks**, **BetterDocs**, **Better Payment**, and **NotificationX**, improving feature adoption and UX consistency.
- Engineered storefront features (**Easy.Jobs**, **StoreSEO**, **StoreFAQ**, **TrustSync**) using Elementor and Gutenberg, enhancing user experience across multiple platforms.

Front End Developer

Deligram

2018 - 2020

- Delivered semantic, pixel-perfect UI for an omni-channel eCommerce platform, improving interface consistency across web modules.
- Produced clean, scalable markup enabling seamless frontend-backend integration and reducing UI defects in production.
- Developed and launched the official Deligram WordPress site, strengthening brand presence and site performance.

Mentor & Junior Front End Developer

LEDP (ICT Division)

Bytesoft IT & AJTech

2016 - 2017 & 2020-2021

- Mentored **300+ students** in graphic design and semantic markup (frontend fundamentals) under the LEDP program of the **ICT Division**, improving learner completion outcomes.
- Contributed to high-performance client websites, optimizing load speed and improving overall user experience.
- Delivered ThemeForest-ready client projects using modern HTML, CSS, and JavaScript standards, ensuring marketplace compliance.

Front End Developer & Project Manager

SmartOne (Canada) & TechNet Ltd (UK)

Independent Contractor
(Remote)

- Led website redesign initiatives at **Smart-One** Company using WordPress (Elementor, custom semantic markup), increasing web traffic by 90% and improving stakeholder satisfaction.
- Led front-end development for HR systems and redesigned a major eCommerce and SaaS platform at **TechNet Ltd** using WordPress (Elementor, custom semantic markup), boosting page speed by 90% and increasing user engagement by 80%.
- Worked closely with the CEO from product ideation to execution, leading project management and front-end development for all in-house and client products.
